SOFTWARE ENGINEERING (IT314)

Agile Project Management Tool

Lab Assignment – 02

Instructions:

1. The assignment is to be done in the existing group of 2 students (same as the 1st assignment)
2. Deadline of assignment submission: 13/02/2022 (11:59 PM)
   Note: There will be deduction for late submission
3. This assignment carries 10 points
4. Naming convention of submission file:
   studentID1_studentID2_Lab02Assignment
   Note: Please use the entire student id, example: 202117001
5. In a group only the student with numerically lower student id must submit the assignment, the other student just needs to mark submit and turn in (without adding any attachment)

Question:

Add User Stories, Tasks and Issues for the TMS and RAS functional description (discussed in Assignment - 01) in Taiga Project Management Tool. You are also expected to generate performance reports like burn-down charts, velocity charts etc. Upload a pdf file containing the screenshots of this work from the tool.

Note: Explore the Taiga tool further to figure out which performance metrices can be obtained and include them in the submission report.
